## APPLICATION TIMING:

GRN Fusion can be used all growing season.

Fill the mixing tank with half of the required water volume and begin agitation. Products should be added in the order of adjuvants, pesticides, fertilizers and then surfactants, mixing thoroughly after each addition. Fill tank with remainder of water and continue agitation until solution is completely mixed. Spray out completely, and properly clean equipment. Do not store mixture in spray tank overnight. Always be mindful of mixing high and low pH products (see SDS), check chemical mixture compatibility using a jar test prior to application. It is the responsibility of the end user to ensure compatibility and safety of tank mixes.

## FOR MD, PA AND VA:
