

ENHANCEMENT

Activator Adjuvant with Turf Pigment

Activo is a unique activator adjuvant formulated with a green pigment to optimize pesticide performance and turfgrass appearance. It provides increased performance at lower tank mix partner use rates. Activo is ideal for large acreage use with fungicides and plant growth regulators.

Features & Benefits

- Improves pesticide performance
- Synergistic effect between pigment and activator adjuvant
- Allows for reduced rates of fungicides
- Flexible rates for season long use
- Green pigment blends well with natural turfgrass color

USE RATES:

0.5-1.5 fl oz per 1,000 ft.²

See label for complete usage information.

Please check with your Aquatrols distributor for available pack sizes.
