

ENHANCEMENT

Turf Marking Foam

Runway is a quick dissipating turf foam marker that helps ensure accurate applications, and will not discolor sensitive turf like ordinary marking foams. It's ideal for rough and fairway applications where agricultural marking foams may last too long or where spray pattern indicators can discolor equipment.

Features & Benefits

- High visibility foam for 20 minutes
- Dissipates to less than 1% of original volume in 45 minutes
- Aids in accurate application
- Safe on sensitive grasses
- Will not discolor turf
- Noncorrosive, nonflammable, nonstaining

USE RATES:

Fill foam tank one-half full with water and add Runway at the rate of 3 ounces per 2 gallons of water. Fill remainder of tank with water by placing the water hose in bottom of tank. Fill slowly to avoid premature foaming.

See label for complete usage information.

Please check with your Aquatrols distributor for available pack sizes.
