

Hydration and Infiltration

Triplo is a combination of surfactants designed to increase the movement of irrigation and rainwater into and throughout the rootzone of natural playing surfaces.

Features & Benefits

- Convenient and easy to use
- Does not require irrigation immediately after application
- Flexible – labeled for use on golf courses and athletic fields

USE RATES:

- Apply 110 –220 ounces (3.25–6.5 Liters) of Triplo per acre (.40 h) in sufficient water volume to ensure coverage
- Apply 2.5–5 ounces (74–148 ml) of Triplo per 1,000 sq. ft. (92.9 m²) in sufficient water volume to ensure coverage
- Apply Triplo every 14 to 28 days

See label for complete usage information.

Please check with your Aquatrols distributor for available pack sizes.
