GENERAL INFORMATION

The Aquatrols Advantage + Pellet and Applicator provides turf managers with a safe, effective, and easy-to-use method for improving the results of hand watering.

DIRECTIONS FOR USE

The Advantage Applicator fits a 1-inch (2.54 cm) hose or may be connected to a 3/4-inch (1.905 cm) hose using the adaptor. The Advantage + Pellet will dissolve in about 2-3 hours at water pressures of 60 to 90 p.s.i. (413.7 to 620.55 kPa). One pellet should permit you to cover about 4-6 average sized greens, watering at a rate of 20-30 minutes per green. Insert one Advantage + Pellet in the applicator jar. The rate at which pellet dissolves varies with water pressure, quality, flow rate and temperature. Apply Aquatrols Advantage + Pellets as often as needed. Pellets may be used in conjunction with your regular turf management program.
