GRN Elite Pro is a premium nutrient solution blend that combines the power of nitrogen, phosphorus, potassium, and high levels of humic acids to provide plants with the ultimate nutrition and soil enhancement. Delivered uniformly by Aquatrols' proprietary surfactant, this advanced formula may aid in the uptake of micronutrients, promote vigorous growth, support deep root development, and improve overall plant performance.

Directions for Use

WHERE TO USE:	GRN Elite Pro can be used on all major turf species in all areas including but not limited to golf course putting greens, tees, fairways, roughs, and athletic fields.
RATES:	<p>SPRAY: 1-2 fl oz/ 1,000 ft² or 44 – 88 fl oz/ acre every 7-14 days (double rates for 14–28-day applications if desired)</p> <p>Deliver desired rate in a minimum of 1-2 gal/1,000 sq ft spray volume.</p>
APPLICATION TIMING:	GRN Elite Pro can be used all growing season.

Fill the mixing tank with half of the required water volume and begin agitation. Products should be added in the order of adjutants, pesticides, fertilizers and then surfactants, mixing thoroughly after each addition. Fill tank with remainder of water and continue agitation until solution is completely mixed. Spray out completely, and properly clean equipment. Do not store mixture in spray tank overnight. Always be mindful of mixing high and low pH products (see SDS), check chemical mixture compatibility using a jar test prior to application. It is the responsibility of the end user to ensure compatibility and safety of tank mixes.

FOR MD, PA AND VA:

Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn, and sweep any product that lands on the driveway, sidewalk or street back onto your lawn. For professional use only.

This lawn fertilizer, which contains phosphorous, is intended only for nonagricultural use on (i) turf during its first growing season, (ii) turf areas being repaired or renovated, and (iii) turf where a soil test performed within the last 3 years indicates a phosphorous deficiency. This fertilizer is not intended for the routine maintenance of turf.

Storage and Disposal

GRN Elite Pro should be stored in a cool dry place, out of direct sunlight. To maintain product quality, storage temperatures should be between 50°F and 90°F. Always store liquid products on lower shelves and dry products on higher shelves. Do not stack palletized products. **Open containers must be resealed for storage.** Strictly adhering to Aquatrols storage guidelines will ensure efficacy and performance for the life of the product. If you have a question about the storage, disposal, or shelf-life of your Aquatrols product, contact your local Aquatrols representative or call 1-856-537-6003.

Precautionary Statements/First Aid Measures in Case of Contact
