Net Contents & Weight: 2.5 gal (9.5 L)

Net Weight: 21.49 lb (9.8 kg)

Weight per gallon at 68° Fahrenheit: 8.595 Lb

Weight per liter at 20° Celsius: 1.03 Kg

CONTAINS NONPLANT FOOD INGREDIENTS:**SOIL AMENDING GUARANTEED ANALYSIS:****ACTIVE INGREDIENTS:**

87.3% Polyoxyethylene-polyoxypropylene copolymer

INERT INGREDIENTS:

12.7% Aqueous ethoxylated sorbitan fatty acid esters

VIVAX ORO is a surfactant designed to improve water holding capacity and water infiltration on golf course fairways, greens and tees, as well as sports turf.

Directions for Use & Application Techniques

GENERAL INFORMATION:

Always mix and apply VIVAX ORO in accordance with label instructions. Follow the application and mixing guidelines provided in this label.

To achieve the best results, apply VIVAX ORO prior to the onset of conditions that promote soil hydrophobicity or turf stress. Watering after the application will improve results by moving the product through the existing thatch layer into the root zone. In situations where tank mix partners achieve maximum efficacy by remaining on the leaf blade, irrigation may be delayed as specified on the tank mix partner's label. During periods of high temperature, all soil surfactants should be watered in to increase performance and safety.

WHERE TO USE:

VIVAX ORO can be used on golf course fairways, greens and tees as well as sports turf.

VIVAX ORO IS DESIGNED FOR USE ON GOLF COURSES AND ATHLETIC FIELDS UNDER THE SUPERVISION OF GOLF COURSE SUPERINTENDENTS AND SPORTS TURF MANAGERS.

USE RATES:

Apply VIVAX ORO at the rate of 5 ounces (148 ml) in a minimum of 1 gallon (3.79 L) of water per 1,000 square feet (92.9 m²) of turfgrass or 2.5 oz (74 ml) bi-weekly.

Apply VIVAX ORO at the rate of 220 ounces (6.51 L) in a minimum of 44 gallons (167 L) of water per acre (0.40 ha) of turfgrass.

APPLICATION INTERVAL:

VIVAX ORO should be applied every 30 days or when localized dry spot or water-repellent soils become evident or at half rate bi-weekly.

Storage and Disposal

Protect product from freezing. If product freezes, warm to room temperature before use. Store in original container only and do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

Precautionary Statements/First Aid Measures in Case of Contact

Precautionary Statements:

Causes serious eye irritation. If medical advice is needed, have product container or label at hand. Read label before use. Wash protective equipment and work clothes thoroughly after handling. Wear personal protective equipment. Specific treatment is given in the First Aid section on this label or on the SDS.

Applicators or handlers of this product must wear chemically impervious gloves, long-sleeved shirt, pants, socks, shoes and splash-proof safety goggles. Consult the SDS for further information.

First Aid Measures:

- **If Swallowed:** Rinse mouth. Have person sip a glass of water if able to swallow. Do NOT induce vomiting, unless told to by a poison control center or doctor. Do not give anything to an unconscious person.
- **If Inhaled:** Move person to fresh air. If person is having difficulty breathing, give oxygen. If not breathing, give artificial respiration.
- **If In Eyes:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.
- **If On Skin:** Wash affected area with plenty of soap and water. Cold water may be used. If skin irritation occurs: Get medical advice or attention.
