

ENHANCEMENT

Static Reduction for Improved Playability

The buildup of static in your synthetic or artificial turf can have a significant impact on the aesthetics, playability, and overall longevity of your field.

Regardless of infill type, Xstatic's unique formulation mitigates static buildup and promotes infill settling upon application, removing unsightly dust discoloration.

By inhibiting static buildup, Xstatic promotes more consistent footing, optimizes playability and improves aesthetics.

Features & Benefits

- Reduce static buildup on synthetic or artificial turf athletic fields
- Diminish off field migration of crumb rubber, cork and other infill mixes
- Improve field aesthetics and playability
- Protect your investment

USE RATES:

- 3 oz / 1000 sq ft
- 1 gal / acre

See label for complete usage information.
