The Aquatrols[®]
Company

AQUEDUCT FLEX[®]
GRANULAR

Aqueduct Flex contains a fast acting dual-action formula specifically designed to give turf care professionals superior performance with flexible options for dealing with drought stress, including localised dry spot.

Aqueduct Flex provides rapid recovery of drought stressed turf, with visible results in as little as **3 DAYS*** when applied at the treatment rate. Aqueduct Flex also provides up to **30-DAY PROTECTION** against the development of localised dry spot when applied on a monthly basis. Whether you are dealing with existing problems or looking for month-long protection against them, Aqueduct Flex is designed to fit into your turf management programme. Aqueduct Flex is safe to use on all turf varieties and areas, including golf course greens, tees, fairways, sports fields, and residential lawns. It can also be used on ornamental gardens, landscapes, trees and shrubs.
