CASCADE Tre is formulated to improve the uniformity of water infiltration and hydration of the soil matrix, resulting in enhanced retention of volumetric moisture for extended periods of time within the soil profile.

Directions for Use

GENERAL INFORMATION:	Always mix and apply CASCADE Tre in accordance with label instructions. Follow the application and mixing guidelines provided in this label. Apply CASCADE Tre prior to the onset of conditions that promote soil hydrophobicity or turf stress. Watering after the application will improve results by moving the product through the existing thatch layer into the root zone. In situations where tank mix partners achieve maximum efficacy by remaining on the leaf blade, irrigation may be delayed as specified on the tank mix partner's label. During periods of high temperature, all soil surfactants should be watered in to increase performance and safety.
WHERE TO USE:	CASCADE Tre IS SUITABLE FOR USE ON GOLF COURSES, ATHLETIC FIELDS AND RESIDENTIAL OR COMMERCIAL TURF, UNDER THE SUPERVISION OF GOLF COURSE SUPERINTENDENTS, SPORTS TURF MANAGERS OR PROFESSIONAL LANDSCAPE CONTRACTORS.
USE RATES:	A2-8 fluid ounces (per 1,000 square feet) Apply CASCADE Tre at the rate of 4 fluid ounces (148 mL) in a minimum of 1 gallon (3.79 L) of water per 1,000 square feet (92.9 m ²) of turfgrass for 1 month of water management performance. Reduced rates of 2 – 3 fluid ounces (74 – 111 mL) in a minimum of 1 gallon (3.79) of water per 1,000 square feet (92.9 m ²) can be applied at closer intervals. Apply CASCADE Tre at the rate of 8 ounces (296 ml) in a minimum of 1 gallon (3.79 L) of water per 1,000 square feet (92.9 m ²) of turfgrass for greater than 1 month of water management performance.

Storage and Disposal

Protect product from freezing. If product freezes, warm to room temperature before use. Store in original container only and do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.
