or 703-527-3887 for international collect calls.

NET CONTENTS: 1 GALLON (3.78 L)

SIGNAL GREEN is a temporary, green spray pattern indicator formulated to further reduce awareness of pesticide applications compared to ordinary blue spray colorants by providing a temporary green tint to treated areas.

Directions for Use

GENERAL INFORMATION: SIGNAL GREEN eliminates waste due to overlapping and skipping, while it indicates drift and improper application. SIGNAL GREEN easily dissipates, is nontoxic and totally compatible with water-soluble solutions. SIGNAL GREEN is designed both for agricultural and non-crop uses. It is ideal for golf courses, parks, cemeteries, athletic fields, lawn care maintenance, utility rights-of-way, forestry and any large turf or grass areas.

WHERE TO USE: FOR USE WITH PESTICIDES REGISTERED FOR AQUATICS, FORESTRY, INDUSTRIAL, MUNICIPAL, NON-CROPLAND, RIGHTS-OF-WAY, TURFGRASS AND OTHER APPROPRIATE USES.

USE RATES:

Broadcast and Handgun Applications: 32 – 64 ounces per 100 gallons (1 – 2 L per 400 L) of spray solution.

Back-Pack Sprayers: 2 – 4 ounces per 3 gallons (50 – 100 ml per 10 L) of spray solution.

Turf or weed color, height, and individual water conditions, such as hardness, pH, iron content, etc., may dictate variations from the suggested use rates. Sight adjustment is recommended. Test for required concentration before use and adjust as needed.

MIXING: In the absence of specific mixing instructions found on the pesticide label, fill the spray tank with at least 50% of the desired finished carrier volume. When premixing in a mixing vessel or inducer, fill with at least 20% of the desired finished carrier volume. While the carrier is agitating, add tank mix ingredients in the following order:

1. Compatibility agent, if needed.
2. Dry formulations (WP, DF, WDG, SP) and dry drift retardants.
3. Liquid drift retardants and flowable formulations (F and FL).
4. Microencapsulated and suspension concentrates (ME and SC).
5. Emulsifiable concentrates (E, EL or EC).
6. Solutions (S, L and LC), micronutrients, liquid or suspension fertilizers.
7. Adjuvants (COC, HSOC, MSO, NIS) and/or water conditioning agents.
8. Finish filling to desired spray volume level and continue agitation.

Precautionary Statements/First Aid Measures in Case of Contact

Precautionary Statements:

If medical advice is needed, have product container or label at hand. Read label before use. Avoid breathing mist, vapors and spray. Do not get in eyes, on skin, or on clothing. Wash protective equipment and work clothes thoroughly after handling. Do not eat, drink or smoke when using this product. Use personal protective equipment as required. Dispose of contents/container to an approved waste disposal plant.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators and other handlers of this chemical must wear long-sleeved shirts, pants, shoes and socks, rubber or PVC gloves, and protective eyewear. Consult the SDS for further information.

First Aid Measures:

- **If Swallowed:** Rinse mouth. Have person sip a glass of water if able to swallow. Do not induce vomiting, unless told to by a poison control person or doctor. Do not give anything to an unconscious person.
- **If Inhaled:** Move person to fresh air. If person is having difficulty breathing, give oxygen. If not breathing, give artificial respiration.
- **If in Eyes:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention.
- **If on Skin:** Wash affected area with plenty of soap and water. Use tepid water if available. If skin irritation occurs: Get medical advice or attention.

Storage and Disposal

Protect product from freezing. Store or transport above 32°F. If product freezes, warm to room temperature before use. Store in original container only and do not reuse empty container. Rinse container thoroughly and dispose of the container in accordance with federal, state and local regulations.
